EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Oppold on July 6, 2005.

The application has been amended as follows:

- a. In line 7 of the Claim 1, after "bottom portions", insert -- of said carrying case --
- b. In line 8 of Claim 12, after "bottom portions", insert -- of said carrying case --

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With regard to Independent Claims 1 and 12, applicant has sufficiently amended and narrowly defined a portable light box, whereby the carrying case of said light box is further distinguished from the prior art such that the top and bottom portions of said carrying case are movable between a first closed position and a second open position. The closest prior art of Holmberg fails to teach a reflector assembly being received within the interior volume of said bottom portion and a divider removably disposed above a cover plate and within the interior volume of said top portion. Thus, applicant's

Art Unit: 2875

agreed amendment more clearly portrays a portable light box, which differs from the tool/tackle box of Holmberg, and the prior art fails to teach or suggest the combination of structural elements disclosed and claimed herein. All subsequent dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
